The following points were discussed in the Academic Affair meeting:

1. Regarding the students who failed in MOOC courses, the carry-over system will be adopted in which the failed student will have to appear in the theory Exam (Online/Offline as per the situation). The question paper will consist of 50 MCQs (following the model of MOOCs) and the maximum marks will be 75 (equal to the Maximum Marks of MOOC Theory Paper). The marks from MOOCs Assignment (maximum 25) will be taken as it is and the result will be declared by adding both theory exams and assignment marks of the same syllabus.
2. The students who scored 40 Marks or above in MOOCs will be treated to be "PASS" in our system as per our Ordinance (though they could not qualify to get a certificate from NPTEL). The students having scored less than 40 Marks will be treated as

Bu

"FAIL" in the MOOC courses and they will have to reappear in Exam under Carry Over system as mentioned in point no. 1.

3. Regarding those who could not register for the MOOCs, elective subject will be assigned by the department and their exam will be conducted (Theory Paper of 75 Marks and Sessional of 25 Marks) along with the regular examination. The title of the elective subjects and syllabus will be exactly same as the MOOC course and the examination pattern will be exactly same as mentioned in point no. 1.
4. In the case of Carry Over, the final grade will be one less than the awarded grade. For example, if a student has got 72 marks in our system of examination, then his/her grade will be B+. Then, his/her final grade will be one less than the awarded one, i.e., B, with ceiling to D grade (i.e. if he/she gets D grades, then his/her grade will no longer be reduced to F). This will be applicable to both students who failed in the MOOCs or could not register.
5. Regarding equivalence of MOOC marks with our grade system, the marks from MOOCs will be taken as it is and will be awarded as per our grade system. For example, if a student gets 65 marks in MOOCs, then, in our grade system, he/she will be awarded B.
6. MOOCs will be floated in 2nd and 3rd years every semester against departmental core subjects and VII semester (from Program Electives) (minimum one course and maximum 2 courses of 12 weeks equivalent to 03 credits from MOOCs to be floated) having 75% similarity with core subjects with the same title. For example, if a subject in 3rd year is Digital Communication, then in the MOOC Course title should also be Digital Communication and the course content of MOOC course should be at least 75% similar with that of our Core course.
7. Depending on whether our core subject is of 4 credits (only theory) or 5 credits (theory with lab), the one credit or two credits shall be awarded by the concerned department after taking assignment and Lab works.
8. Model of Quiz1, Quiz2, Quiz3 and Quiz 4 will be adopted as it is from the Odd semester.
9. The Academic Calendar for even semester of 2020-21 was discussed and finalized.

Proposal to conduct DRC Meetings at Central Level from Even Semester, Session 2020-21

As per the clause 6.5.5.1 of Ph.D. Ordinances, the Doctoral Research Committee (DRC) for research scholars shall be appointed within a month from the date of his/her first registration for one year. The composition of DRC is given below.

|    |   |          |
|----|---|----------|
| 1. | Dean Postgraduate Studies and Research & Development or other Dean/Professor to be nominated by the Vice Chancellor                     | Chairman |
| 2. | Outside Subject Expert of the relevant area from the panel approved by the Vice Chancellor  | Member   |
| 3. | Head of Concerned Department/Centre   | Member   |
| 4. | Supervisor (s) of concerned student   | Member   |
| 5. | Two faculty members from the concerned department having Ph.D. degree, recommended by concerned Head and approved by Dean PGS and R & D | Member   |

In case of the person is the ex-officio capacity in DRC at sl. No 1 and 3 happen to be the supervisor of the candidate then convener shall get the alternate senior faculty member to be nominated at his/her place by the Vice-chancellor. The experts for all the research scholars will be common and minimum one expert in the DRC is mandatory.

The following guidelines are proposed to conduct the DRCs of different departments at the central level.

- (i). From Even Semester, session 2020-21 onwards, it is proposed to conduct the DRC meetings at the Central level under the Chairmanship of Dean, Postgraduate Studies and Research and Development or other Dean/Professor nominated by the Vice Chancellor. It is also proposed to nominate the two faculty members (at sl. No 5) preferably for the entire duration of a student in view of the smooth conduct of the DRCs and consistency in the evaluation of the PhD work unless that faculty member leave the department for any reason. In case of non-availability of adequate number of regular faculty members with PhD degree in certain subject in the department (e.g., HMSD, etc.), the HoD can recommend the faculty members from other academic institution at sl. No 5.
- (ii). Since 2017-18 when credit system in Ph.D. program was introduced, it has been observed that the DRC recommendations are not proper and uniform among the departments, and sometimes the credits awarded to the students is not as per the clause 6.5.12.3 of Ph.D. ordinances. This created a lot of problem for the Dean PGS office for providing the clearance to the student for the permission of Ph.D. thesis submission. Thus, it is proposed to include Associate Dean PGS and R&D as Secretary for the smooth conduct and uniform recommendations and credits awarded to each student by the DRCs.

- (iii). Based on the total number of Full-Time and Part-Time Ph.D. students available in each department and broad specializations research areas, the following number of specialization groups/sub-groups are proposed in different departments. Each broad area must have a minimum of 4-5 students. The number of groups in a department may be 1-3 depending on the broad research area and number of students in the group.
- (iv). If the number of students in a group are more than 8 then two sub-groups may be formed in a group. For example, if there are 10 students in a broad specialization area (viz., ME1), two sub-groups may be formed as ME11 and ME12 as given below.

**Format for the number of Groups/Sub-groups in different department**

| SN  | Department   | No of Groups | Group Name           |
|-----|--|--------------|----------------------|
| 1.  | Chemical Engineering Department                    | 1            | CH1                  |
| 2.  | Civil Engineering Department                       | 3            | CE1, CE2, CE3        |
| 3.  | Computer Science and Engineering Department        | 3            | CS1, CS2, CS3        |
| 4.  | Electrical Engineering Department                  | 3            | EE1, EE2, EE3        |
| 5.  | Electronics & Communication Engineering Department | 3            | EC1, EC2, EC3        |
| 6.  | Information Technology Computing Applications      | 1            | IT1                  |
| 7.  | Mechanical Engineering Department                  | 3            | ME11, ME12, ME2, ME3 |
| 8.  | Mathematics and Scientific Computing Department    | 1            | MSC1                 |
| 9.  | Chemistry and Environmental Science Department     | 1            | CES1                 |
| 10. | Physics and Material Science Department            | 1            | PMS1                 |
| 11. | Humanities and Management Science Department       | 1            | HMS1                 |
|     |  | <b>21</b>    |                      |

- (v). Based on the number of FT/PT students in each specialization/broad research areas, the number of broad research areas will be finalized after the recommendations of HOD and approval by the hon'ble Vice Chancellor.
- (vi). As per the clause 6.5.5 of Ph.D. ordinances, the experts for all the research scholars will be common and minimum one expert in the DRC is mandatory. Therefore, it is proposed to nominate one External Expert for each group/sub-group in a department among a panel of three External Experts after the approval of hon'ble Vice Chancellor.
- (vii). For the departments having more than one group/subgroup, it is also proposed that the two faculty members from the concerned department having Ph.D. degree (as mentioned in the point no. 5 of the DRC composition) for a student may be re-nominated by the concerned HoD and approved by the Dean PGS and R&D for the smooth conduct of the DRC meetings.
- (viii). For Humanities subjects (e.g., English, Economics, etc.), there will be no restrictions for the minimum number of students.

- (ix). The DRC's for the PhD students will be held only after the completion of comprehensive examination.
- (x). The central level DRC meetings may be arranged in the forenoon (10.00 am-1.00 pm) and afternoon (2.00 pm - 5.00 pm) sessions; therefore, maximum 12-14 working days may be required to complete the Ph.D. evaluation of all the students in a semester depending upon the number of groups/sub-groups.

The committee discussed the eligibility criteria as per the existing AICTE/UGC guidelines for the admission in B.Tech. (First year), B.Tech. (Lateral entry), BBA, M.Tech, MBA, MCA, M.Sc. and Ph.D. programmes in different departments of the University for the academic session 2021-22. The following decisions were taken:

- i) In view of admission in B.Tech first year through JEE only, the eligibility criteria has been modified as per point 1(i) of attached annexure.
- ii) The eligibility criteria for B.Tech (lateral entry), BBA, M.Tech, MBA, MCA, M.Sc remain same as per the previous academic session.
- iii) The modified eligibility condition for Ph.D. program in Science & Humanities subjects has been changed as per the UGC norms (Point 3 in annexure)
- iv) The requirement of either B.Tech. or M.Tech. First Division is replaced by M.Tech. First Division for the Ph.D. programs in Engineering & Technology disciplines (Point 3 in annexure)
- v) Details regarding the fellowship amount for Research Scholars with University Fellowship and Teaching Assistantships are included in point 3A (i) & (ii) of Annexure.
- vi) In view of on-line teaching facilities, the radial distance criterion of 100 km for the part-time PhD candidates has been removed as per the point 3(B) of annexure.

The meeting was ended with vote of thanks to the chair.

**ELIGIBILITY CRITERIA**

The candidates must fulfill the following eligibility criteria to appear in MET (except for admission to B.Tech.-I program) for the respective courses as per the prescribed schedule. The details of the eligibility conditions are given below.

**1. ELIGIBILITY CONDITIONS FOR ADMISSION IN B.TECH., BBA, MBA, MCA AND M.Sc. COURSES**

The candidates shall have to provide evidence of fulfilling the eligibility criteria as given herein at the time of document verification during the counseling.

- (i) **B.Tech.:** The candidate should have passed 10+2 examination with at least 55% marks (50% in case of candidate belonging to SC/ST category) and with at least 60% average marks (55% in case of candidate belonging to SC/ST category) in Mathematics, Physics and one of the 5 subjects: Chemistry/ Technical Vocational subject/ Computer Science/ Information Technology/ Engineering Graphics.
- (ii) **2<sup>nd</sup> year B.Tech.:** For admission to second year of B.Tech. under lateral entry:
  - (a) **Diploma holders:** Passed 3/4-year diploma examination from an institution recognized by U.P. Board of Technical Education in any branch of engineering/technology except agriculture engineering with at least 60% marks (55% in case of candidates belonging to SC/ST category).
  - (b) **B.Sc. graduates:** Passed 3/4-year B.Sc. degree from any recognized University of India as defined by UGC with at least 60% marks (55% in case of candidates belonging to SC/ST category) and having passed 10+2 exam with Mathematics as a subject.  
The candidates belonging to B.Sc. stream shall be considered only after filling the seats with the candidates belonging to the diploma stream.
- (iii) **B.B.A.:** The candidate should have passed 10+2 examination in any discipline, with at least 55% marks (50% in case of candidate belonging to SC/ST category) and English must be one of the subjects at 10+2 level.
- (iv) **M.B.A.:** The candidate should have passed the recognized Bachelor's degree of minimum three years duration from any University of India as recognized by UGC with at least 50% marks (45% in case of candidates belonging to SC/ST category) in the qualifying examination.
- (v) **M.C.A.:** The candidate should have passed the recognized Bachelor's degree of minimum three years duration from any University of India as defined by UGC with mathematics at 10+2 level and obtained minimum 50% marks (45% in case of candidates belonging to SC/ST category) in the qualifying examination.
- (vi) **M.Sc. Physics:** The candidate should have passed the recognized Bachelor's degree in science stream of minimum three years duration from any University of India as recognized by UGC. The candidates must have passed qualifying examination with Physics as a subject for all the three years and with Mathematics as another subject for at least two years and obtained minimum 50% marks (45% in case of candidates belonging to SC/ST category) in the qualifying examination.
- (vii) **M.Sc. Maths:** The candidate should have passed the recognized Bachelor's degree in science stream of minimum three years duration from any University of India as

recognized by UGC. The candidates must have passed qualifying examination with Mathematics as a subject for all the three years and obtained minimum 50% marks (45% in case of candidates belonging to SC/ST category) in the qualifying examination.

- (viii) **M.Sc. Chemistry:** The candidate should have passed the recognized Bachelor's degree in science stream of minimum three years duration from any University of India as recognized by UGC. The candidates must have passed qualifying examination with Chemistry as a subject for all the three years and obtained minimum 50% marks (45% in case of candidates belonging to SC/ST category) in the qualifying examination.

## 2. ELIGIBILITY CONDITIONS FOR ADMISSION IN M.TECH. COURSES

Admission test will be open to the Indian Nationals who have passed/appearing in the qualifying examination, fulfilling the eligibility requirements given below. GATE qualified candidates with qualifications stated below will be given first preference and MET qualified candidates shall be admitted only against those M.Tech. seats which shall remain vacant after admitting GATE qualified candidates. The candidates who are not domicile of U.P. will be eligible to take admission against general seats only. The reservation policy as prescribed by the U.P. State Government shall be applicable for admissions of UP domicile candidates only. Candidates applying under sponsored category should possess the working experience of minimum two years in any industry/organization and shall be required to provide Sponsorship Certificate from sponsoring organization/industry at the time of counseling. The admission to such candidates shall be on supernumerary basis as per University rules.

All GATE qualified candidates shall receive monthly stipend as per the AICTE norms. The top three MET qualified candidates of each M.Tech. specializations who are not receiving any scholarship/stipend from any other source shall receive a monthly scholarship of Rs. 2000/-subject to the terms and conditions prescribed by the University.

### 3. ELIGIBILITY CONDITIONS FOR ADMISSION IN Ph.D. COURSES

#### Engineering & Technology

Candidates who possess 1<sup>st</sup> division Master's degree in relevant discipline of Engineering/ Technology. If a division is not awarded, and CGPA/CPI is adopted, 6.75 will be considered equivalent to first class/ division.

#### Science & Humanities

Candidates who possess the Master's degree with 55% marks or an equivalent grade in a point scale wherever grading system from an Indian University or equivalent degree from an accredited foreign University in Physics/Chemistry/ Mathematics, relevant discipline of Humanities for admission to Ph.D. program in Economics/English/Psychology and relevant discipline of Management for admission to Ph.D. program in Management

The University offers Ph.D. program under following categories:

#### A. FULL TIME Ph.D. SCHOLARS

##### (i) Research Scholar with University Fellowship

Regular Ph.D. seats available under the above scheme will be notified at the time of counseling for the limited period. Candidates will have to opt this at the time of application/ counseling and appear for the interview. Such regular Ph.D. candidates will share limited teaching load in his/her respective department and shall receive fellowship subject to the terms and conditions prescribed by the University under this scheme. All such candidates will have to appear in the entrance test and followed by interview organized by the University. The weightage of marks in the entrance test and interview will be in the ratio of 70% and 30%, respectively, for preparing the merit in a particular specialization. The total number of candidates called for interview in each specialization will be ordinarily three times (if more candidates are available) of the available seats in the respective department/specialization. The eligible candidates will be admitted in a particular department/ specialization on the basis of cumulative merit (both test and interview), and as per the availability of faculty members in the particular specialization.

Such Ph.D. candidates will share practical classes in his/her respective department and shall receive a fellowship and contingency as per the terms and conditions prescribed by the university.

##### (ii) Research Scholar with Teaching Assistantship

Regular Ph.D. seats available under the above self finance scheme will be notified for the limited period. Candidates will have to opt this at the time of application/ counseling and appear for the interview. Such regular Ph.D. candidates will share limited teaching load in his/her respective department and shall receive payment against the teaching assistantship as per the terms and conditions prescribed by the University.

All such candidates will have to appear in the entrance test organized by the University. The weightage of marks in the entrance test and interview will be in the ratio of 70% and 30%, respectively, for preparing the merit in a particular specialization. The total number of candidates called for interview in each specialization will be three times (if more candidates are available) of the available seats in the respective department/specialization. The eligible candidates will be

admitted in a particular department/ specialization on the basis of cumulative merit (both test and interview), and as per the availability of faculty members in the particular specialization.

(iii) **Research Scholar under Self Finance Scheme**

Under this scheme the University may admit candidates to Full-Time Ph.D. programme who have qualified a National Level test (UGC/CSIR-NET-JRF etc.) and which entitles them for the award of fellowship or the candidates working in any externally funded project in the university or candidates sponsored by MHRD under QIP Scheme. The candidates of above such categories will be selected on the basis of personal interview without appearing in the University's Ph.D. Admission Test provided that they fulfill the eligibility norms of the Ph.D. ordinances.

The University may also admit its PG pursuing students well in advance to Ph.D. programme if they have qualified above national level test for the purpose of award of scholarship.

Application of Foreign National received through the Indian Council of Cultural Relations, Government of India is also eligible to apply under this scheme. Application is invited through their embassies as per the provision of University.

(iv) **Research Scholar under Sponsored Scheme**

A research scholar is sponsored by a recognized R&D organization, Academic Institution, Government Organization or Industry for doing Ph.D. in the University on a full-time (regular) basis. The university shall not provide any assistantship/scholarship to such research scholar and the applicable University fees and other expenditure on pursuing research shall be remitted by the sponsoring organization to the University.

**B. PART-TIME Ph.D. SCHOLARS**

A candidate working in a research centre recognized by the University, Regular/ Contractual faculty members of this University/Employees working in Govt./ Govt. aided / Private Engineering colleges/Universities/Industries/Public sector organizations shall be considered for the admission under Part-time category subject to the terms and conditions prescribed by the University. For such candidates, written examination/Interview shall be notified by the university. Part-time Ph.D. candidates are not entitled to get any assistantship/ fellowship from the University. There is no restriction on radial distance for part-time PhD applicants.

All such candidates will have to appear in the entrance test organized by the University. The weightage of marks in the entrance test and interview will be in the ratio of 70% and 30%, respectively, for preparing the merit in a particular specialization. The total number of candidates called for interview in each specialization will be three times (if more candidates are available) of the available seats in the respective department/specialization. 4. Since no candidate was awarded Ph.D. degree after the admission of Ph.D. candidates in Civil Engineering Department; therefore, the committee recommended that no candidate will be admitted in Civil Engineering Department for the next academic session 2021-22. The subject of Ph.D. candidate for Humanities and Management Science department will be decided by the Head of the Department.
3. It was also decided to distribute three candidates allotted to Civil Engineering Department under the University Fellowship (at point no. 2) to the other departments (for the session 2020-21 only) based on the performance of Ph.D. awarded/submitted by the students admitted in the session 2016-17 and 2017-18.

Based on the performance of different departments (Annexure), the committee recommended one additional candidate to each, Mechanical Engineering Department, Electronics and Communication Engineering Department, and Physics & Material Science Department for the session 2021-21 only.

The meeting was ended with vote of thanks to the chair.

The committee discussed in detail about the restructuring of B.Tech. ordinances to make it student-centric in the preview of recommendations of National Education Policy (NEP), UGC, AICTE etc. After several discussions held at various levels, such as the Ordinance Reform Committee, meetings with Deans and Head of departments, the committee proposed the following points for the restructuring of existing B.Tech. ordinances.

1. **Credit Requirements/Course Structure:** The present minimum credit requirement of 180 for B.Tech. program should be reduced to 160 as per the AICTE guidelines. Likewise, for lateral entry, it should be reduced from 140 credits to 120 credits. The department must select such courses under Core Course (CC) categories (e.g., BSM, DC, EF, etc.) and Program Electives (PE). The course content should commensurate with the dynamic need of the industry and make the students competent enough for GATE, IES, etc.
2. In addition to 160/120 credit courses, the students will have to opt for two different kinds of courses:
  - (a) **Extracurricular Activity Courses (ECA)** will be non-credit but mandatory courses and the student is not required to appear in the examination to pass the course. The ECA courses will include (i) Induction Program (Compulsory) (ii) Soft Skill development (iii) Unity and Discipline (NCC or NSS) (iv) Cultural and physical fitness (v) Personality Development. The students after having attended the ECA course shall be provided certificates.

(b) **Audit Courses (AC)** which will be non-credit compulsory courses as per the choice of students under which he/she has to pass two courses through examination in Semester III and IV, respectively.

3. Courses for Professional Skill (PS) category are allocated in I and II semesters to acquire the market-based capability if they leave after First Year under the multi-exit policy. The department will allocate such subjects/practical to the student in Semester III and IV, which enable them to prepare as per the market need if they leave after Second year under the multi-exit policy.
4. A provision of Program link basic (PLB) Science and Engineering courses has been made in each semester (from I to V) with a total minimum of 15 credits. Under this category, the department will have the flexibility to allocate the Theory/Laboratory-based courses as per the need of B.Tech. discipline in any of the Core Course (CC) categories (e.g., BSM, PC, EF, etc.) listed in the overall credit structure of B.Tech. program. Provision is being made to put NCC as an elective subject under HSSE.
5. To make the curriculum more inclusive, students shall opt for 1 or 2 online courses per semester through MOOCs in the 4, 5, 6 and 7 Semesters only (minimum one and maximum 02 MOOCs per semester). The BOS must approve all these courses of the respective departments for credit consideration. The department may consider Program Electives (PE1, PE2 and PE3) in Fifth, Sixth and Seventh Semester, respectively to be taught through the MOOCs. Moreover, any Program Core (PC) courses may be replaced by the MOOC course if its course content matches more than 75% with the course content of PC.
6. It is proposed to include the course/program of the Centre of Excellence to create new possibilities for life-long learning and to provide more flexible curricular structures through BOS of the concerned department.
7. In the VIII Semester, there will be an Industrial Practice (IP) course for the entire semester duration (18-22 Weeks). During this course, the student will undergo an internship/industrial training that will integrate knowledge and theory learned in the classroom with practical application and skills department in a professional setting.

However, if a student does not opt for the Industrial Practice (IP), he/she must register for two courses and one Minor Project offered by the department. The two courses and minor project offered by the department may be conducted online.

Those students who establish Start-up during the study period, his/her work done will be considered in lieu of Industrial Practice (IP) in the curriculum after assessment by the concerned department and will be awarded grade. Such student may spend IP duration of 18-22 weeks of VIII Sem either working in his/her own startup or in some other reputed organizations/industry. If he/she chooses the option to work in his own start up in VIII sem as industrial practice, he/she has to show the progress/ work at the end of VIII sem. Only then the grade earned by him earlier will be awarded to him.

If he/she chooses to do IP in other organization/industry than his/her own start-up and earn a grade, then he/she can choose any of the grades for VIII Sem IP evaluation. He/she will have the option of choosing any of them for grading of Industrial practice (IP).

8. To promote the optimum learning environment and support for students, the branch specific contents for common course will be provided by the concerned department. The department teaching the common course should not modify the content beyond 10%. To promote the holistic and multidisciplinary education, the contents of a common course may be taught by the faculty members of more than one department.
9. For holistic development of the students and as per NEP-2020, the students may earn additional 18-20 credits through the "**Minor Degree Courses (MDC)**" offered by different departments of the University from Semester IV to VII. The Minors offered by different departments will be the state-of-the-art courses that make the student competent in his/her discipline to meet the additional global challenges and. If Department Minor (DM) includes theory-based courses only, and he/she is not able to complete the required credit, then the student will be required to complete Research Project in Semester VIII.
10. The choice of MDC will be optional in the sense that if the student does not opt for MDC, he/she can complete his/her B.Tech. program with a minimum of 160 credits. However, if a student opts for the additional 18-20 credits (other than the minimum 160 credits) through "Minor Degree Courses, he/she will get B.Tech. Degree with Minor in .... (name of the Minor course). In the proposed credit structure, a student will have the flexibility to choose an interdepartmental minor course, and these extra 18-20 credits can be earned during the entire period of B.Tech. program. The student can also exit the MDC in between MDC program. In that case, he/she will be given a Detailed Mark sheet certificate (DMC) of the Minor degree course (MDC).
11. Provision of credit bank/credit transfer:
  - (a) If any student studying in the University leaves the B.Tech. program before completing and comes back to complete the rest portion of the program within the stipulated time, the credits earned earlier by the student will be considered, and he/she can continue onwards to complete the remaining program. If any student wants to avail the temporary absence from the program, he/she is required to get approval from the competent authority for his/her absence as per the University rules. The program duration for such students may be extended equivalent to the period of absence from B.Tech. program. The absence period will be maximum of one academic session only (i.e. one year only) with maximum exit of two times in the program duration ( so in any case student has to complete his/her B. Tech. Program within 07 (6 +1) years.

Also, if a student establishes any start-up during absence from the University, then his/her temporary absence period will be considered to extend his/her program duration equivalent to the period of absence from B. Tech. program after

assessment by the concerned department. Regarding the credit bank structure, the rule for the B.Tech program shall also be applicable for the MDC program. The MDC program also will have to be completed within the maximum duration of the B.Tech program.

- (b) If any student studying in the University completes any innovative project from the reputed organizations/industries at any stage during the B.Tech program, this may be considered in lieu of his B.Tech Project in curriculum after assessment by the concerned department.
- (d) If any student studying in the University leaves after one/two/three years, the University will provide a detailed mark sheet certificate (DMC) for the credits completed by the student, it can be used by him/her for acquiring B.Tech. Degree from other institutes/universities.
- (e) If any candidate approaching the MMMUT for admission in B.Tech. program at a higher level (Third year) based on credits earned by him in other Institute/University, his/her credits earned for a given course may be considered if the contents of the course studied matches more than 75% of the course content of MMMUT. This will be verified by the concerned BOS/Department. Such student will have to study and complete at least 65 credits in this University. It can be implemented as per the guidelines of the AICTE/UGC/State Government.

12. The Overall credit structure for B.Tech. program and guidelines for the course codes are attached in Annexure-A and Annexure-B, respectively.

The meeting ended with vote of thanks to the chair.

# University level Theory based courses run by the department

\*For Theory based Department Minor only

**Note:** Department may consider PE1, PE2, PE3 to be taught through MOOCs. The MOOC courses may replace any Program Core (PC) subject if the course content of MOOCs courses matches more than 75% with the course content of PC subject.

## GUIDELINES FOR SUBJECT CODES

The followings are recommended for the Department subject codes for ODD and EVEN semester, Department Minor, Open Electives, Internship Elective, Extracurricular Activities (ECA) and Audit course codes of B.Tech. Degree program of the University.

### A. Department Subject Codes

The alphabets used for the Undergraduate B.Tech. Program are same as the existing B.Tech. ordinances. For example: BME stands for Bachelor's Degree course of Mechanical Engineering discipline. For other Departments, the following alphabet codes will be used.

| Code | Department   |
|------|--|
| BCE  | Civil Engineering Department                             |
| BEE  | Electrical Engineering department                        |
| BME  | Mechanical Engineering Department                        |
| BCS  | Computer science & Engineering Department                |
| BEC  | Electronics & Communication Engineering Department       |
| BIT  | Information Technology & Computer Application Department |
| BCH  | Chemical Engineering Department                          |
| BHM  | Humanities & Management Science                          |
| BSM  | Physics & Material Science Department (PMSD)             |
|      | Mathematics & Scientific Computing Department (MSCD)     |
|      | Chemistry & Environmental Science Department (CESD)      |

The three digits subject codes (e.g., ME112) are recommended in which the First digit (1) indicates the year, and last two digits (12) shows the subject code number of the concerned department. The subject code numbers are divided between the ODD Semester (01-50) and EVEN semester (51-99). The following subject codes are recommended for the B.Tech. program.

### ODD Semester

| Subject Code | First Digit indicates Year | Last two digits subject code | Range of last two digits              |                        |                          |
|--------------|----------------------------|------------------------------|---------------------------------------|------------------------|--------------------------|
|              |                            |                              | Subject Category (EF, DC, PS, M, HSS) | Program Electives (PE) | Internship Elective (IE) |
| BME112       | First Year (1)             | 12                           | 01-25                                 | -                      | -                        |
| BME212       | Second Year (2)            | 12                           | 01-25                                 | -                      | 41-49                    |
| BME312       | Third Year (3)             | 12                           | 01-25                                 | 26-39                  | 41-49                    |
| BME412       | Final Year (4)             | 12                           | 01-25                                 | 26-39                  | 41-49                    |

Project Part-II: BME440

For BSM Subject codes, (e.g., BSM112), the range of last two digits for Mathematics, Physics and Chemistry departments will be as follows:

MSCD: 01-25, PMSD: 26-40 and CESD: 41-50

## EVEN Semester

| Subject Code | First Digit indicates Year | Last two digits subject code | Range of last two digits              |                        |                          |
|--------------|----------------------------|------------------------------|---------------------------------------|------------------------|--------------------------|

| BME152       | First Year (1)             | 52                           | 51-75                                 | -                      | -                        |
| BME252       | Second Year (2)            | 52                           | 51-75                                 | -                      | 91-99                    |
| BME352       | Third Year (3)             | 52                           | 51-75                                 | 76-89                  | 91-99                    |
| BME452       | Final Year (4)             | 52                           | 51-75                                 | 76-89                  | 91-99                    |

Project Part-I: BME370, Seminar: BME380, Minor Project: BME480, Internship: BME490

For BSM Subject codes, (e.g., BSM152), the range of last two digit for Mathematics, Physics and Chemistry departments will be as follows:

MSCD: 51-75, PMSD 76-90 and CESD: 91-99

### B. Department Minor (DM)

This will be represented by DME in which First alphabet (D) indicates Department Minor. There will be no distinction in the last digit range for ODD and EVEN semester subjects:

| Subject Code | First Digit indicates Year | Second digit indicates DM Number | Last digit indicates subject code of that Minor |
|--------------|----------------------------|----------------------------------|---|
| DME212       | Second Year (2)            | 1                                | 1-9   |
| DME322       | Third Year (3)             | 2                                | 1-9   |
| DME412       | Final Year (4)             | 1                                | 1-9   |

### C. Open Elective Codes

The subject codes for open elective category may be allotted as given below:

| SN  | Department   | Subject Codes |
|-----|--|---------------|
| 1.  | Civil Engineering Department                             | OCE401-OCE405 |
| 2.  | Electrical Engineering department                        | OEE401-OEE405 |
| 3.  | Mechanical Engineering Department                        | OME401-OME405 |
| 4.  | Computer science & Engineering Department                | OCS401-OCS405 |
| 5.  | Electronics & Communication Engineering Department       | OEC401-OEC405 |
| 6.  | Information Technology & Computer Application Department | OIT401-OIT405 |
| 7.  | Chemical Engineering Department                          | OCH401-OCH405 |
| 8.  | Humanities & Management Science                          | OHM401-OHM405 |
| 9.  | Physics & Material Science Department                    | OSM401-OSM415 |
| 10. | Mathematics & Scientific Computing Department            |               |
| 11. | Chemistry & Environmental Science                        |               |

#### D. Extracurricular Activities Codes

The following range for Semester wise codes are recommended in which First digit indicates the semester and remaining two digits (01-99) indicates the category of Extracurricular Activities as given below. The actual code for a specific activity in the group will be finalized by the committee at later stage. For example, in Sports, Cultural and Games group activities, there are several activities which should be assigned a specific code in the given range for each semester.

| Category | Group Activities             | First Sem         | Second Sem        | Third Sem         | Fourth Sem        | Fifth Sem         | Sixth Sem         |
|----------|------------------------------|-------------------|-------------------|-------------------|-------------------|-------------------|-------------------|

Hon'ble Vice Chancellor

The following discrepancies were observed in the credits awarded to the below mentioned PhD students of CSED through credits awarded by the DRC and credits claimed by the student. A letter regarding the same was issued to the HOD, CSED (letter enclosed). The clarification regarding these discrepancies has been received from the individual students, duly recommended and forwarded by the Head, Computer Science and Engineering Department which are attached herewith for your kind consideration.

As per the clarification received from the students, duly recommended and forwarded by the Head, CSED with remarks shows that the credits awarded to above PhD students by the DRC are correct and mistake done by the students occurred due to the lack of understanding about the credit distribution in PhD Ordinances.

In this regard, it should be noted that the new credit system for Ph.D. students were introduced by the University in the same academic year in which these students were admitted, i.e. 2017-18. Since all the above students have already completed the three years of their PhD program; therefore, credits awarded by the DRC may be granted in the interest of the PhD. students.

Submitted for your kind approval.
